Subject Code: ME  
Part Number: 19C851587G1  
LBI: 31532 ET AL

**CATEGORY:** Stations

**SUBJECT:** GETC CABLE HARNESS

A Service Parts Kit (SPK) is now available to keep the GETC cable harness from falling through the gap at the rear bottom of the supporting shelf. This allows the shelf to close properly and not cut the cables.

Part contained in SPK 9027:

1. 19D903972P1 GETC plate QTY 1
2. 344A4109P1 foam plate QTY 2pcs
3. 19C852232P1 Installation Instructions

A sheet metal plate is slid onto the lower flange of the shelf, pushed against the back and secured with double stick tape.
